AISA PerthSEC Conference 2022 Call for Speakers

AISA is pleased to invite current members to submit a paper for AISA PerthSEC Conference, being held at the Pan Pacific Perth on Friday 18 November 2022. The AISA PerthSEC Conference is the single largest member event in Perth for the information security profession, run and hosted by members, for members and guests and the Perth community.

We are currently working on securing some amazing speakers and are now calling upon the community to share your experience and knowledge at this year's conference by submitting your presentation proposal as detailed further below.

No matter whether you are an independent consultant, a security professional at a small company, a blogger, an expert security architect at a large company with a story to tell, a security manager or privacy expert – your submissions will all be reviewed equally.

All submissions will be reviewed by the AISA Perth Committee and will have to adhere to the same criteria we apply for keynote speakers – the presentation must be vendor neutral and cannot be product focused.

Whilst we are not limiting the topics that you can submit a paper on, we will rate favourably those presentations which are focused on the following areas:

- Cybercrime, intelligence and policing
- Cybersecurity, incidents and technology
- Governance, policy and strategy
